

Mirazeite, Lda is a company created to work exclusively on the world-wide market and it is inserted on a Portuguese group of enterprises with an experience in the production and trading of olive oil for decades.

There is a conjugation of the noble secular tradition with the technological future, dealing with fruits, olive oil and oils of unequalled purity and quality.

Extracted from the first cold pressure through squeeze process and filtration, it guarantees all its magnificent properties.

The high technology and the modern production methods guarantee the maximum quality and the unequal competitiveness in the more demanding international market.

We commercialize several brands, but we distinguished "Bom Dia" which is presented in a range varied products namely olive oil, oils, olives, vinegar and flavorings.

We have a huge export experience, especially for Portuguese speaking African countries, Brazil, South Africa, Ivory Coast, Senegal, United States of America, Canada, Luxembourg, Netherlands, France, United Kingdom and Germany.
